THE
NEW YORK
CITY DIRECTORY,

FOR
1842 AND 1843.

CONTAINING FIFTY-FIVE THOUSAND NAMES:

TOGETHER WITH

OTHER VALUABLE INFORMATION.

NEW YORK:
JOHN DOGGETT, JR., PUBLISHER AND PROPRIETOR.
NO. 89 NASSAU, CORNER OF FULTON STREET.
PRICE EIGHTEEN SHILLINGS.

TO THE PUBLIC.

As a book without an error would be more rare than one without a preface, so a Directory free from a misspelled name, or, a wrong number, would be a degree of perfection seldom if ever, attained. To make this kind of publication generally correct, each citizen should be as ready to give his name and address, as the publisher himself is to insert it; but excuses are made and fears expressed by individuals of jury or militia duty, or both, when their names are requested, as the probable consequence of complying with the request. Others, most readily give their names and place of business but refuse their residence! And hence, when any such omission is discovered, it will be attributed to the carelessness of the publisher, and thus affect the reputation of his work.

It is believed, however, that commendable care has been exercised in collecting the information for this Directory. A very large portion of the city was twice canvassed, and if names, therefore, are either omitted or misspelled, or if numbers are incorrect, the fault has been beyond the control of the publisher. The unusual number of names, nearly fifty-five thousand, now published, were all written in the respective places with which they are connected. Ten reams of foolscap paper were required to write them, forming a manuscript of more than a mile in length, and which, together with all other writing done for this work, (of the usual width of paper) if placed in a direct line, would extend from the Battery to Canal Street.

To collect such a mass of names and arrange them alphabetically—to correct such errors and harmonize such contradictions as presented themselves—to prepare and revise the manuscript—to read the proof-sheets and attend to the arrangements, generally, for issuing this work, has been no small labor. The undertaking on the contrary, has been attended with great anxiety, a peculiar sense of responsibility, and has required unceasing watchfulness and energy; and although it is believed that every precaution has been taken to avoid errors and omissions, still, they must as a matter of course, be expected. The next season, however, will enable the publisher to correct the removals, &c, by this, a printed Directory, and to expunge therefrom every error that may be discovered.

In the arrangement of the names herein contained, the publisher can conscientiously say that he did not resort to "the use of a borrowed Directory." But understanding the peculiarities of the task to be undertaken and the difficulties to be encountered in this enterprise—he was determined to rely on his own resources—on a system tested by experience—and by that system, together with industry and perseverance, to strive for the accomplishment of his wishes and the gratification of any expectation of the community, respecting this publication. To say, however, that it is perfect in its arrangement,

or correct and complete in all its details, would indeed, be folly. The determination is, however, to render it, eventually, more truly valuable as a *Directory*, than any other yet offered to this public. And the publisher, therefore, will deem it both his duty and his interest, to lend a willing and attentive ear to any suggestion for its improvement. Indeed he would be materially aided in his annual task, should each business citizen happily feel and manifest, an interest in this publication and acquaint him of any error that may be discovered which would insure a most correct and complete *Directory*, and render this entirely such as the publisher desires and intends it shall be.

Considerable attention has been given to the arrangement of the miscellaneous information. The aim has been to render each department, *firstly*, as useful and convenient as possible, and *secondly*, as concise as practicable. The Banks, Postoffice, Insurance Companies, Packets, &c., are presented in a form considered the best for a business community. Several other departments are under consideration and will be added another season.

The numbers of several streets were changed on and after the first of May, but the *new* numbers are given in this work so far as ascertained. It is a question worthy of consideration, how far the convenience of the public is promoted by adding to the usual confusion of a May-day, that also, of old and new numbers, and at a time too when the names of the citizens are being taken for the forthcoming *Directory*!

Those who examined this work in progress, admired its neat and beautiful typographical appearance, and it is proper and just to say in this connexion, that the type was cast expressly for this publication, at the celebrated foundry of John T. White, Esq., and the printing executed by Messrs. George W. Wood & Co., 45 Gold Street.

In conclusion, the publisher respectfully calls attention to the mechanical execution of this work—to the moderate price at which it is offered to the public, and believes that a liberal community will support the enterprise so far as its merits may deserve.

To the gentlemen who have aided in preparing this *Directory*, sincere and grateful thanks are due for the assiduity and faithfulness with which they have labored, and to them, individually and collectively, are most cheerfully extended the best and most ardent wishes of

THE PUBLISHER.

DIRECTORY OFFICE, June 25th, 1842.

OBSERVE.—That in this work the names of females are arranged alphabetically with those of males.

Newspapers to be forwarded by mail should be enclosed in a cover, and left open at one end, and the number of free papers, and those for subscribers, respectively, endorsed on each packet; and all newspapers enclosed in one package, provided they should not exceed twenty in number.

If a letter or memorandum in writing is contained in any newspaper, the person who deposits the same forfeits five dollars, and the package becomes liable to letter postage.

Letters to be sent by mail should be addressed to the place of their destination in the clearest manner; they should always be directed to the nearest post office, and the name of the State should not be omitted; letters are often mis-sent from their ambiguous direction: a punctual attention to this rule may prevent delay and miscarriage.

If an abatement of letter postage be claimed, the letter must be opened in the presence of the postmaster, or one of his assistants; and if such letter should, instead of being overcharged, happen to be undercharged, the deficiency must be made up by the applicant.

All letters which are lodged to go by the packets must be distinguished by writing *per packet*, for there are places of the same name in the United States similar to those in Europe.

Publishers of newspapers, periodicals, &c., are requested "to add the county as well as the town or post office on all packages made up by them for the mails," to the neglect of this are attributed the irregularities which so often occur

* Thus marked have no mails on Sundays.

HARBOR MASTERS.

There are four Harbor Masters, who have, for the better accommodation of the public, divided the city into four districts; and for the convenience of the public, their general office is kept at Messrs. E. & G. W. Blunt's Nautical Store, (179 Water street, corner of Burling Slip;—the districts subject to alteration, at the discretion of the Harbor Masters.

DISTRICT I.

JOSEPH TINKHAM resides at 23 Beekman street, whose district extends from west side Burling Slip, up the East River, to the extent of the port. A slate kept at Jonah Tilley & Sons, No. 152 South street, near Peck Slip.

DISTRICT II.

ABRAHAM TURNURE, 57 Henry street, whose district extends from west side Burling Slip to east side of (pier 14) Jones's wharf. A slate kept at E. & G. W. Blunt's, 179 Water street, corner Burling Slip.

DISTRICT III.

JOHN EVANS, 328 Pearl street, whose district extends from the west side of (pier 14) Jones's wharf, to Coenties Slip, pier 8. A slate kept at E. & G. W. Blunt's, 179 Water street, corner Burling Slip.

DISTRICT IV.

DAVID SHERRY, 52 Forsyth street, whose district extends from Coenties Slip (pier 8) round the Battery, and up the North River. A slate kept at C. A. Secor & Co.'s, 103 Washington street.

✂ In case of the sickness, or absence from the city, of any of the Harbor Masters, either of them will attend to his district.

FIRE DISTRICTS.

The City is divided into five Fire Districts, which are indicated by the striking of the City Hall bell, as follows:

- 1st District,—One stroke of the bell.
2d District,—Two do. do.
3d District,—Three do. do.
4th District,—Four do. do.
5th District,—A continual ringing.

The First District is comprehended by a line from the foot of Murray street to the City Hall, and in a line parallel with the North River to Twenty-first street.

The Second District is bounded by the latter line, and a straight line from the City Hall to Avenue 3d at Twenty-first street.

The Third District is bounded by the latter and a line from the City Hall to the East River above the Dry Dock.

The Fourth District is bounded by the latter, and comprehends all the space between that and the East River as far down as Frankfort street.

The Fifth District is all that part of the city below Frankfort and Murray streets.

LAFAYETTE BURR MILL-STONE MANUFACTORY.

WILLIAM TYACK has been in the habit of going to France annually, and selecting the Blocks at the Quarries with his own hand, personally; it insures to the Burrs of his manufacture a decided preference over the Blocks imported by merchants to order, who are not, nor can they be, accurate judges of the article, unless they manufacture them.

Persons giving orders for Burrs, are requested to be very particular in stating whether they are wanted for all kinds of Grain—say country work generally—or for flouring alone, as it is of the utmost importance that the temper of the Burr should correspond with the kind of Grain to be manufactured.

W. T. having had considerable experience in Mills, is well aware of the great importance of having Burrs made in the most faithful and perfect manner.

This very valuable article, although it has been many years in use in this country, yet its qualities in its perfect state are but little known, owing to the defect in the materials and workmanship.

They will be made to order, and forwarded to any part of the United States or the Canadas, warranted, with my name on them.

Millwrights, Millers, and Gentlemen, who are judges of the article, are invited to call at No. 240 Washington street, corner of Robinson, and examine the materials and workmanship.

DUTCH BOLTING CLOTHS, from the most approved manufactories in Holland; Esopus and Cologne Stones; also, Mill Irons, wrought and cast, of any pattern, furnished at the shortest notice.

SPINDLES, Hoisting Screws, Gudgeons and Wheels for Gristmills, Cranks, Stirrups, and Pitmans. Castings and Wrought Iron Work for Saw Mills.

SCREWS, for pressing Paper, Hay, Oil, Tobacco, Cotton, &c., of all sizes. All kinds of MILL-WORK furnished at a short notice, stamped and warranted. All articles warranted, and sold at fair prices. William Tyack continues in the agency of all the above named articles, which are from the most approved manufactories.

WILLIAM TYACK, Agent,

No. 240 Washington street, corner of Robinson, New York.

To any one desirous of purchasing French Burr Mill-Stones, we can state that last spring, William Tyack, of New York, made for us three pair of five feet six inch Burrs, which we have fully proved by a season work, and find them to be of the best quality. Mr. Tyack's manner of selecting and matching the blocks, hooping, barking, balancing, and otherwise finishing off his Burrs, particularly claimed our admiration.

Richmond, Va., Feb. 27, 1834.

R. B. HAXALL & CO.

I have been a miller twenty-one years, and am now in the employment of Messrs. Richard B. Haxall & Co., of the Columbian Mills, city of Richmond. They run fourteen pairs of five and a half feet Burrs, some of which were made at the Penitentiary at Richmond, some in Baltimore, some in New York, and other places. Having proved them all, I find the three pair made by William Tyack, of New York, to be superior, on account of the quality and selection of the blocks, the workmanship, &c., and what is very important, they require but little balancing; and from my experience, if I should want Burrs, I should certainly give Tyack the preference.

Columbian Mills, Richmond, Feb. 18, 1834.

OLIVER BLANKINSHIP.

I have been a miller thirty-six years, and Flour Inspector of the city of Richmond three years, and concur fully in all respects with Messrs. R. B. Haxall & Co., and Oliver Blankinship.

Richmond, February 18, 1834.

GEORGE B. NICHOLSON.

We hereby certify, that we have purchased from Mr. William Tyack, of New York, two pairs of French Burrs, five and a half feet in diameter; one pair we have used two seasons, the other one season. We feel it a pleasure, as well as an act of justice, to recommend highly these Burrs to any milling establishment in this country, as we consider them fully equal, if not superior, to any we have ever used since engaged in the milling business—in which business one of the firm has been largely concerned nearly thirty years.

Petersburg, Va., Feb. 17, 1834.

J. B. KENDALL & CO.

I have been a miller twenty-one years, and seven years head miller in the employment of J. B. Kendall & Co., Union Mills, Petersburg, Va. I have used Burrs made at several different places, and I find the Burrs made by William Tyack, of New York, (two pairs,) to be superior to any I have ever used, in regard to the temper of the blocks, the workmanship, and so well balanced as to require nothing. This is an important improvement in the Burr runner, as it will run much more steady than it will by putting on one side a heavy piece of metal to balance it.

Union Mills, Petersburg, Va., Feb. 17, 1834.

To be had by the dozen at the manufacturer's prices of the above named firms.

*. The principle of this Strop is anti-elastic, consequently it does not round the edge of the Razor. It consists of four sides, of different sharpening properties, viz: No. 1, The Hone, which is of ten times the power of the ordinary Hone, and almost instantly thins a dull edge. No. 2, A powerful sharpening property for removing the wirey edge left by the Hone. No. 3, A less powerful composition for gradually reducing the Razor to a fine edge. No. 4, Is merely the Calf Skin peculiarly prepared by the Maker, and expressly adapted to the purpose of perfecting the edge of the Razor.

Five minutes will be ample time for putting the dullest Razor in perfect order.

Manufactured by L. CHAPMAN, 102 William St., New-York.

L. C. continues to manufacture Pocket Books, Wallets, &c., &c., and invites the attention of wholesale dealers, from all sections of the country. Styles much improved and a very great reduction in prices. Terms, six months for approved paper on bills of \$100, and upwards.

WILLIAM SELPHO,

SOLE MANUFACTURER IN AMERICA OF THE

ANGLESEY LEG,

17 SECOND STREET, (NEAR THE BOWERY,)

NEW YORK.

This description of ARTIFICIAL LEG derives its name from the celebrated MARQUIS OF ANGLESEY, by whom it has been adopted and worn since its first invention, by the late ingenious Mr. Potts, of London, to whom the present artist was for eleven years a Pupil and Assistant.

The ANGLESEY LEG is PATENTED in ENGLAND, and differs RADICALLY and ESSENTIALLY from all other substitutes for an amputated limb. In Europe it is worn by Prince Ernest of Hesse Philipsthal, and by other Continental as well as British Noblemen and Naval and Military Gentlemen, who suffered in the late wars; also by several Ladies of distinction. It is allowed, by the most eminent European Surgeons, to be the nearest approach to Nature hitherto produced; an opinion which, both as to its form and action, has been recently confirmed by the following distinguished Medical Gentlemen:—

DOCTOR MOIT,	DOCTOR PAYNE,	DOCTOR PARKER,	DOCTOR RODGERS,
" PATTISON,	" BEDFORD,	" CHEESMAN,	" STEVENS,

AND OTHERS OF THE PROFESSION IN THIS CITY.

And during the short time the artist has been in this country its advantages have been fully tested by a number of Ladies and Gentlemen of the highest respectability, who had previously used other substitutes, and whose evidence of the superiority of the ANGLESEY LEG must satisfy the most sceptical. In addition to which, the AMERICAN INSTITUTE, at their late Fair, awarded to Mr. S. a Silver Medal for the best specimen of Artificial Leg.

Among the many advantages which the ANGLESEY LEG possesses over all others, is the beautiful simplicity of its action (metallic springs being entirely dispensed with); the ease and comfort of the socket; its lightness, and the admirable substitute for the Natural Tendon, which gives an elasticity to the step exactly similar to Nature, and is an actual assistance to the walker never yet attained in any other description of Artificial Leg.

Mr. S. considers it his duty to caution the public against being imposed upon by persons pretending to imitate the Anglesey Leg. Mr. S. introduced the article into this country, and the mechanical principle upon which the peculiarity of the Leg depends, is known only in the United States to himself.

AND SOLD WHOLESALE ONLY FOR CASH, WITH A LIBERAL DEDUCTION FROM RETAIL PRICES.

For the especial accommodation and safety of the public, and to do away the temptation to counterfeiters, created by the unprecedented demand for these Pills, in smaller quantities than the present fifty cent boxes, the proprietor has issued them in boxes of twelve and a half cents, retail, and sold at wholesale for *cash only*, at usual discounts. All persons are cautioned against buying less than a full package, having the signature on the outside wrapper of T. R. HIBBARD, principal agent for the proprietor, to counterfeit whose signature is a State prison offence.

GRAVEL INFIRMARY,

70 NASSAU STREET.

From the Washington Globe, March 29, 1842.

"At the request of one of our most estimable citizens, who informs us that he has been entirely cured of the gravel by using Dr. Lee's medicine, we publish the following for the benefit of all who are afflicted with the disease."

From the Brooklyn (New York) Annual Visitor for February 1842, by Doctor Martin K. Bridges.

DOCT. LEE'S INFIRMARY FOR THE GRAVEL, 70 NASSAU STREET, N. Y.

It is from motives of real sympathy, that I refer to this establishment, aware as I am, that a vast amount of human suffering is endured from a want of knowledge that there is a remedy for this most painful and distressing disease. Dr. S. H. P. LEE, the originator of the far-famed "*Lee's New London Bilious Pills*," is a Physician of high reputation, and some thirty years practice, and could not be benefited by any remarks that I could make in his favor. Believing this complaint may be effectually subdued by the skill and experience of Dr. Lee, and knowing that in Brooklyn and on Long Island generally there are numbers who suffer more or less from diseases of the kidneys and the kindred organs, I do most unhesitatingly recommend all such to the care of Doctor Lee, as above; and this is done *without the knowledge of the Doctor, or solicitation from any source.*

R. HEINISCH,
MANUFACTURER OF
PATENT TAILORS' SHEARS, BANKERS' SHEARS,
TRIMMERS, LADIES' SCISSORS, &c.,
NEWARK, N. J.,

Respectfully announces to the citizens of New York, that Mr. George Tiemann, of 63 Chatham street, is appointed sole agent for the sale of the above articles, and will be furnished with a full supply of the different sizes and descriptions, and those, also, having the decided and important improvement of the flat screw, a very late addition to this celebrated article.

After the numerous premiums and splendid testimonials these articles have obtained from the Institutes in different parts of the United States, as well as from the unqualified approbation bestowed upon them wherever they have been introduced, it would be superfluous in R. Heinsch to recommend his manufactures on his own responsibility; he therefore offers the following extract from the report of the Franklin Institute of the city of Philadelphia, as corroborative testimony of their merits, and of the high repute with which they are viewed by men of talent, judgment, and experience:

"The Tailors' Shears patented and manufactured by R. Heinsch are beautifully made, exhibiting in the successive specimens gradual improvement to a perfect fit of the hand and a judicious disposition of the leverage; the committee consider that a great benefit has been conferred on a large class of operatives by the improvement of an article in incessant use, and therefore recommend these shears to special notice."

STEAM REFINED CONFECTIONERY.

Merchants who purchase CONFECTIONERY at wholesale, are respectfully invited to inspect the assortment manufactured by the Subscriber, whose Candies, during a period of eleven years, have been tried in nearly every state in the Union, as well as in the West India Islands; and whether subjected to the rough treatment of a protracted inland transportation, or to the trying exhalations from a ship's hold in a tropical climate, they have uniformly given satisfaction, and have proved themselves equal to any manufactured in the States, and as cheap as any manufactured in the city.

THE ANGLESEY LEG.

CHARLES BARTLETT,

48 CORTLANDT ST., CORNER OF GREENWICH,

Has made great improvements on that principle—it is allowed by competent judges to be superior in every respect—an easy, agreeable fit of the leg to the body, with a natural facility of motion, combined with strength and durability, together with the reduction of prices, are inducements to be prized by those in want of such assistance. Call and procure a leg, and if it does not answer the above description, and is not satisfactory, no pay will be required. C. B. has paid his whole and undivided attention to his business for the last 5 years; which enables him to guarantee entire satisfaction to all those who have procured limbs and cannot use them. Please call, and be made to walk. C. B. is very skilful in fitting when the amputation is below the knee—put two legs on to Capt. J. W. Webster, of Buffalo, N. Y., who had both his legs amputated 3 1-2 inches below the knee. Call and see his letter on the subject.

Crutches and splints of various descriptions for sale, and made to order.

All communications for advice strictly attended to, if post-paid. Satisfactory reference given.
